

Agenda Item Details

MEETING DATE:

9/15/2026

TOPIC:

Annual Recruitment & Launch Report

BACKGROUND:

The supporting priority of Human Capital & Positive Culture in WJCC Schools' strategic plan, Elevate '28, focuses on recruiting and retaining an exemplary workforce while fostering an environment where transparency and trust are the norm. The priority includes measurable goals related to recruitment, retention, compensation, a supportive work environment, and professional learning. This presentation provides the School Board with an annual update on recruitment and retention outcomes from the 2025–26 school year, demographic information about employees hired for the 2026–27 school year, and the supports provided to new hires as they enter and grow within WJCC Schools.

RATIONALE:

Recruiting, developing, supporting, and retaining a high-quality workforce is essential to providing consistent, high-quality learning experiences for students and advancing the division's strategic priorities. Reviewing annual workforce data allows the School Board to monitor progress toward established Human Capital & Positive Culture goals, identify trends and areas for continued attention, and understand how division initiatives support employees throughout the talent-development continuum. This update also demonstrates how recruitment and hiring efforts are intentionally connected to onboarding, professional learning, leadership and talent development, and workplace culture.
