

Williamsburg-James City County Public Schools

Minutes from Tuesday, September 1, 2026

Work Session & Action Items

**Closed Session at 4:00 p.m. followed by the Open Session at 4:30 p.m.,
both held in Room 300 in the Annex at the School Board & Central Office,
117 Ironbound Road, Williamsburg, VA**

1. Meeting Opening

1.01 Call to Order

The meeting was called to order at 4:06 pm.

1.02 The Roll is Taken

Present were Daniel R. Cavazos, M.D.; Amy Chen, M.A.T.; Ty Hodges; Michael T. Hosang, J.D.; Kimberley M. Hundley, M.Ed.; Randy J. Riffle; and Andrea M. Donnor (Chair). Also present were Daniel F. Keever, Ph.D., Superintendent; Beth Allar, Clerk of the Board; staff, press & the public.

2. Closed Session(s)

2.01 Personnel Issues

A motion was made that the Williamsburg-James City County School Board convene in closed session for review and discussion of appointments, change in status, leaves of absence, separations, academic and athletic stipends; and, associated actions, pursuant to the personnel exception at § 2.2-3711(A)(1) of the Code of Virginia.

Moved by: Amy Chen, M.A.T.; seconded by: Kimberley M. Hundley, M.Ed.

Aye: Daniel R. Cavazos, M.D., Amy Chen, M.A.T., Ty Hodges, Michael T. Hosang, J.D., Kimberley M. Hundley, M.Ed., Randy J. Riffle, and Andrea M. Donnor

Motion Carries 7-0

The board recessed at 4:16 p.m.

3. Work Session & Action Items

3.01 Chair Reconvenes the Meeting

The meeting reconvened at 4:30 p.m.

3.02 Board Certifies Closed Session(s)

Ms. Chen certified, that to the best of each member's knowledge, the Williamsburg-James City County School Board, while in closed session, discussed only public business matters lawfully exempted from open meeting requirements as stated in Virginia Law and that only such public matters as were identified in the motion convening the closed meeting were heard, discussed or considered.

Moved by: Amy Chen, M.A.T.; seconded by: Randy J. Riffle

Aye: Daniel R. Cavazos, M.D., Amy Chen, M.A.T., Ty Hodges, Michael T. Hosang, J.D., Kimberley M. Hundley, M.Ed., Randy J. Riffle, and Andrea M. Donnor

Motion Carries 7-0

3.03 Approval of the Agenda

A motion was made to approve the agenda as presented.

Moved by: Randy J. Riffle; seconded by: Michael T. Hosang, J.D.

Aye: Daniel R. Cavazos, M.D., Amy Chen, M.A.T., Ty Hodges, Michael T. Hosang, J.D., Kimberley M. Hundley, M.Ed., Randy J. Riffle, and Andrea M. Donnor

Motion Carries 7-0

4. Announcements/Superintendent's Report

4.01 Announcements/Superintendent's Report

- **First Day of School**
 - Wonderful first day and week of school
 - Students, teachers, and staff building community with one another
 - Jumping right back into learning routines
 - Excited for the days and weeks ahead
- **Kindergarten Orientation Model**
 - Kindergarten students at six elementary schools learned their teacher assignments yesterday and started the day today in their permanent kindergarten classroom
 - Six sites participated in the Kindergarten Orientation Model where kindergarten students learned important routines, like how to interact with teachers and classmates and how to follow daily schedules
 - Practiced early reading and math skills that will help build a strong foundation for the rest of the year and took part in fun activities to help teachers learn about students' school readiness
 - Look forward to visiting kindergarten classrooms & seeing classroom communities flourish
- **Community Challenge: Join PTA**
 - Issued a challenge to school based and Central Support staff to join one – or more – PTAs
 - Encourage community members to do the same
 - Members need not be current families or staff members – join the PTA for the school nearest your home or from where your children may have graduated
 - Donation information and membership details are linked on the WJCC Schools homepage

5. Proposed Agenda Items

5.01 Review of the Fiscal Year 2026 Year-End Financial Report and Proposed Commitments of Fund Balance

Pursuant to Virginia Code §22.1-100, WJCC Schools may not carry forward unexpended funds from one fiscal year to the next unless the School Board takes action to commit or assign those funds for a specific purpose.

Historically, pursuant to the School Division's operational contract with the City of Williamsburg and James City County, 90% of unexpended funds were allocated to the "Future School Use Account", with the remaining 10% returned to the localities based on their respective funding shares.

During Fiscal Year 2026, James City County returned a portion of the School Division's Fiscal Year 2025 fund balance to establish a healthcare reserve fund. Subsequently, both James City County and the City of Williamsburg expressed support for directing any remaining Fiscal Year 2026 year-end fund balance to the healthcare reserve fund to help address future healthcare cost obligations and strengthen the Division's long-term financial position.

Administration is recommending that the Fiscal Year 2026 year-end fund balance be committed to the healthcare reserve fund. This recommendation is supported by both James City County and the City of Williamsburg and advances the School Division's efforts to build

financial capacity to manage future healthcare-related expenditures. Revenue and expenditure information presented is preliminary, unaudited, and subject to change.

Mrs. Donnor commented that she appreciated the fiscal prudence with which the school division operates - trying to expend as much of the money as possible but also allowing for a cushion and added that they are not allowed to overspend in Virginia. She also expressed appreciation for the forethought of the textbook and healthcare reserve funds, and noted that keeps the money in the division to support faculty and staff.

5.02 Review 2026-2027 Textbook Selection and Adoption Proposal

This supports the key priority of the division's strategic plan Elevate '28 and provides WJCC teachers and students access to current, aligned textbooks and textbook materials.

PROPOSED COURSES FOR TEXTBOOK SELECTION & ADOPTION	
Course	Timeline
CTE: AP Business & Personal Finance	September – December 2026
Mathematics: Pre-Algebra 6, Pre-Algebra 7, Pre-Algebra 8 and Algebra I	September – December 2026

Process

The Teaching & Learning and College, Career and Readiness (CCR) departments will lead the textbook selection and adoption process for each content area in collaboration with review committees and informed by stakeholder input. The proposal includes the identification of the textbook evaluation committee, a timeline for the scope of work, and adherence to the guidelines and criteria outlined in Policy IIAA and Regulation IIAA-R, for each course.

Committee

Each textbook selection committee will include a school board member, division staff, school administrators, general education teachers, specialists representing content, special education, multilingual learners, gifted, parents/guardians, and community members.

School Board Policy IIAA requires the local school board approve the textbook selection and adoption schedule, the textbook evaluation committee, and evaluation criteria.

CONTENT	PROJECTED COST
CTE: AP Business & Personal Finance	\$15,000 (CCR Funds)
Mathematics: Pre-Algebra 6, Pre-Algebra 7, Pre-Algebra 8 and Algebra I	\$475,000

Regarding the mathematics books, Mr. Hosang clarified that a student takes pre-algebra 6, 7, 8 then goes into algebra after, and that they are different classes - not one prerequisite for algebra. Ms. Mompont confirmed and added that some students do accelerate through mathematics based on current placement, test scores, or recommendations from teachers.

5.03 Review Request to Modify and Extend Construction Management Services for Two Pre-K Centers to McDonough Bolyard Peck (MBP)

On August 20, 2024 the School Board approved construction management services in the amount of \$554,360. MBP's contract is based on providing 12 months of construction-phase services for this project. Construction phase services began on October 1, 2025, and therefore, run through September 30, 2026. Based on the current schedule provided by Oyster Point Construction Company, MBP is proposing to extend the construction management services by eight months and change the end date for these services from September 30, 2026, to May 31, 2027.

Construction management services include support and assistance with:

- An onsite management team for the duration of the project
- A monthly update to the administration on construction progress
- A document review for constructability
- A construction milestone schedule
- Pre-bid and post-bid conferences

- A review of the construction contract
- Recommendations regarding all proposed change-orders

As agreed, the construction phase services extended beyond 12 months and the monthly construction phase fee is \$32,980. The additional cost of modification is \$263,840. Total cost of the construction management services is now \$818,200. The FY24 and FY25 Capital Improvement Plan included Pre-K Space Construction and FFE funding in the amounts of \$28,778,775 and \$6,470,280 respectively.

Mr. Hosang inquired if there were issues that caused the construction to be delayed. Mr. Snipes confirmed no issues, just some weather delays. Dr. Keever added that when WJCC initially contracted with MBP for construction management services, the intention was to break ground before the end of Sept/Oct of last year, and the process to get to the groundbreaking point and selection of a general contractor took a little longer than they'd hoped.

5.04 Review of Calendar Year 2027 School Board Meeting Dates

Per Policy BCA, *School Board Organizational Meeting*, the board will hold an organizational meeting annually in January and establish its regular meeting schedule for the following year.

It has been determined that more advance planning and notice of the meeting schedule increases efficiency and improves communication for board members, staff, and the community. Therefore, a proposed school board meeting schedule for calendar year 2027 is being presented for review by the board, with the goal of approval on September 15, 2026.

The Code of Virginia, § 22.1-72, reads: "Each school board shall hold its annual organizational meeting for the purpose of establishing its regular meeting schedule for the ensuing year..."

To remain compliant with state code, during the January Organizational Meeting the board will have the opportunity to confirm or amend the planned meeting dates for calendar year 2027.

The school board may also hold special meetings when necessary.

Board members inquired whether there is enough time for staff to enjoy the 7/4 holiday; and if there were always 5 meetings in January. Dr. Keever confirmed that instead of scheduling the July meeting on Tuesday, 7/6, it was shifted to Wednesday, 7/7. He also confirmed that there were 5 meetings in January 2026 (3 budget meetings) and explained the rationale for enhanced discussion in January was to help prepare for the Superintendent's Proposed Budget presentation at the first meeting in February.

6. Information/Discussion Items

6.01 Capital Improvements and Project Updates

The Capital Improvement Plan (CIP) identifies facility, infrastructure, and equipment projects needed to support the school division's operations and strategic priorities. Each year, the superintendent and staff evaluate capital needs and develop a recommended Capital Improvement Plan (CIP) for school board review and consideration. Upon school board and funding approval, WJCC Schools' Operations staff coordinates and oversees project implementation and completion.

Operations staff provided the school board with an update on the status of capital improvements and project updates.

Mr. Riffle inquired how the over-expenditures are paid and confirmed with Ms. Ewing that funds are transferred from projects that are under budget to cover those that go over budget. Dr. Keever added that it is also over multiple fund years, and administration has been able to manage those balances where remaining funds are available.

Mrs. Donnor commented that it is exciting to see things go from paper to actual building.

6.02 Instructional Technology Focus Group Update

In October 2024, the school board approved the realignment and updating of the Strategic Plan, *Elevate Beyond Excellence Bridge to 2028*. In support of this plan, the Superintendent's Transition Plan includes Initiative T1C which is a Review of Screentime with a Focus on Purposeful Integration as part of the Key Priority: Academic Achievement, College and Career Readiness, and Educational Equity.

The Superintendent's Transition Plan supports the division Strategic Plan through defined initiatives with progress reported to the school board. A focus group of 55 participants representing the School Board, division leaders, school-based administrators and staff, parents, and community members met twice in July 2026 to develop a shared vision and guiding principles and consider best practices for the appropriate, effective use of instructional technology. The focus group's findings and recommendations have been shared with school division leaders.

Ms. Robin Ford, Chief Academic Officer, and Ms. Kristin Barr, Supervisor for Instructional Technology, Innovation and Information Literacy, presented the information to the board.

Board member discussion and comments included:

- Thanked the committee and staff members for their work and the presentation / hope concerned families will take the time to review the information
- Family Academy – confirmed the upcoming session will be in person with additional details forthcoming
- Inquired if they believe literacy is better taught from a book or a device
 - discussed the benefits of technology as a supplement
 - confirmed that the primary instruction in elementary is done offline - Benchmark uses printed material daily
- Glad to see that part of the focus group discussion confirmed that in school, tech is for learning, not for recreation
- Heard a lot of concern about when to introduce technology into the classroom and is glad the expectation is set - hopefully through walkthroughs and surveys, they will hear about progress
- Doesn't want tech used as a babysitter in the classroom
- Inquired whether doing away with electronics completely is being considered in K-1
 - Ms. Ford confirmed that it is not being considered and discussed the impact to the curriculum, especially Benchmark, if the digital components are removed, and offered some examples of when digital resources are used and the rationale for keeping them available for students
 - It was noted that minutes of screen time are being tracked and it looks like students are not on devices all day long
 - Having a set of tools in each classroom is the strongest approach - laptops are not on the students' desks when they walk into the room; devices are in the room, but pulled out when needed for a particular lesson
- There is a big difference between technology in the classroom and screens in the classroom – it is often where people mix this up; the flashpoint of this discussion is technology as it is viewed on screens
- Teachers are using technology in smart and savvy ways to enhance learning – seen evidence of that in class observations
- Technology can be a really good way to provide differentiated feedback for educators
- Personal stories shared of how access to screens helped a child learn and access the curriculum
- If all tech is taken out of the classroom, some kids get left behind losing access to adaptive tools to learn; not every child learns the same - they need different things
- Literacy - a lot of work can be done in schools and with teachers, trust them to do the job; work also needs to be done at home to teach students not to use the devices recreationally when learning - it goes both ways; get parents involved, give them resources to help develop the good habits

The board recessed at 5:49 p.m.

The meeting reconvened at 5:58 p.m.

6.03 2025-2026 Academic Progress Update

Key Performance Indicators (KPIs) and SOL data from spring 2026 were presented. The purpose of the presentation was to apprise the school board of the school division's academic performance on the 2026 SOL testing.

Dr. Keever gave an introduction and explained that the presentation would provide a comprehensive look at the school division's academic performance during the 2025-2026

school year and highlight meaningful areas of progress, areas where performance remained flat, and areas where results declined and require more immediate and urgent attention.

The presentation was given by Mr. Sean Walker and Dr. Catherine Worley, Assistant Superintendents of School Leadership.

Board member discussion and comments included:

- The gaps in writing for 10th grade
 - Analyzed the test - the writing portion went well; it was the multiple choice – for example, knowing where commas go or don't go
 - Students have general proficiency in their own work – it was going through editing in multiple choice fashion that was a gap
 - Noted that these are not skills just learned in 10th grade and affirmed the need to look at writing in elementary, middle, and high
- Differentiation between city and county - how does WJCC start to address that
 - Discussed action steps implemented
 - The need to focus more on this group of students and better understand who they are and what their needs are - an incremental process that will continue to grow this year
- Appreciated the slide showing the cohort trend (slide 19 in the presentation) – a lot of investment was made in terms of curriculum
- Across the board the growth is really good in a lot of areas, but proficiency is flat or down; inquired, for the students who saw growth, how close they were to proficiency
- Proficiency is the goal – noted that the score attainment for proficiency is increasing in the 26-27 school year
- York County – discussed how are they able to achieve higher scores with less per pupil expenditures and smaller administration (noted it is not an apples to apples comparison / continue to look at strengths in other school divisions and make modifications as necessary)
- The school board's job is to listen and fulfill the needs being asked for
- Excited to see the work done this past year as the division moves into next school year and thanked staff, teachers, and building leaders
- There is a lot that schools are tasked to get done within a school day and some students have the support in the evening to go over notes/questions and many have resources to get tutoring after school; numbers are not always a reflection of what happens in the classroom, but what families are able to provide kids; the school division can do what it can bell to bell - think about ways in which the community can step up and help in the after bell time in an accessible, safe way
- Discussed wrap-around services and community outreach/partnering
- Reading is important and everyone is making an extreme effort; there are good programs; people are working hard.
- Have to do something to help James River do better; tried, but something is missing; must close the literacy gap; a lot of people are not proficient by 3rd grade
- Appreciation expressed for the work everyone has done, the growth, and the many success stories

6.04 Redistricting Update: Steering Committee Map Recommendation

Many school buildings in WJCC Schools, specifically at the elementary level, are at capacity. To accommodate student population, eight of nine WJCC elementary schools have portable classrooms (trailers) on site. With the anticipated August 2027 occupancy of two new pre-k centers, the school division must also consider the best and most efficient way to utilize elementary space that will be available when pre-k students are located in the new pre-k spaces as the current pre-k program is housed in five elementary schools. The shift will leave some elementary spaces unoccupied while other spaces remain at or over capacity. Engaging in conversation on school zones also allows the school division to consider boundaries, feeder pattern alignment, efficiencies and effective delivery at the secondary level.

The Redistricting Steering Committee released draft attendance zone maps for each level on May 12, 2026, and revisions were presented on August 4, 2026. Community members have engaged in a second feedback process.

The Redistricting Steering Committee's map recommendation was presented to Dr. Keever.

Ms. Kara Wall, Chief Communications Officer, presented the update to the board. Topics from the presentation included:

- Process overview
- Review of Redistricting Guiding Principals (utilization, demographics, neighborhood schools, transportation, minimize impact, feeder pattern)
- November 2025 survey overview / key factors
- Forecasted resident students
- Reviewed residential development by attendance area
- Current capacity analysis – all levels
- Current Feeder Pattern Alignment
- Review of Steering Committee's composition, approach to map-making, initial drafts from May 2026, revised draft maps from August 2026
- Survey overview from September 2026
- Committee's final considerations
- Reviewed building utilization, demographics, and class size targets
- Total projected student impact: 1,805/11,103 (16%)
- Feeder pattern alignment
- Next steps
 - September 15 – Dr. Keever recommendation to School Board
 - October 6 – WJCC United Transition Roadmap
 - October 20 – School Board acts on Superintendent's proposed attendance zones
 - Now through SY2027-2028 – WJCC United implementation Plan

Steering Committee Recommendation – The Redistricting Steering Committee unanimously recommended it's August draft, with no further changes, to Dr. Keever.

Board member discussion and comments included:

- Thanked Ms. Wall for leading the committee's efforts and for the summary; it was a comprehensive presentation to show the background and work that has been going on for over a year and was a clear summation of the committee's work at each stage of the process
- The presentation should help to clarify and provide the data points
- The survey results overall showed understanding and agreement
- A lot of effort was put into this
- Thanked everyone who responded to the surveys – people thought about areas that the committee didn't think about, though also pointed out many things the committee had already discussed, which confirmed they were on the right track (90-95% of issues raised were discussed repeatedly in the committee meetings)
- The committee had the right people on it - they knew what they were looking for, and while not everyone will be happy, (with most decisions not everyone will be happy) for at least the next 10 years WJCC will be moving in the right direction
- To clarify, this is not the final, this is the recommendation – the community can still share concerns
- Would like to see children that are happy with the decisions - want to get it right
- Nothing changes if nothing changes - have to change to do what is best; might not see it right now, but will down the road
- Be positive, the kids will do better than some of the adults
- Know that administration and the board are doing what is best for children

The board recessed at 7:37 p.m.

The meeting reconvened at 7:45 p.m.

6.05 WJCC United Transition Roadmap

Many WJCC school buildings, particularly at the elementary level, are at or near capacity. Eight of the division's nine elementary schools currently use portable classrooms to accommodate student enrollment. At the same time, the anticipated opening of two new pre-K centers in August 2027 will relocate pre-K programs currently housed in five elementary schools, creating available instructional space in some buildings while others are projected to remain at or above capacity. Reviewing attendance zones provides an opportunity to more effectively utilize available capacity across the division while also considering feeder pattern alignment, transportation and operational efficiencies, and the effective delivery of programs and services at both the elementary and secondary levels.

An interdepartmental leadership team has been established to proactively prepare for the 2027-2028 school year should the School Board approve new attendance boundaries. The team will coordinate a thoughtful implementation that addresses both operational needs and the human impact of change on students, families, employees, and school communities.

The WJCC United Transition Roadmap will provide a coordinated framework for supporting students, families, employees, and school communities should new attendance boundaries be approved for the 2027-2028 school year. Organized around four areas of focus (Student Experience, Employee Experience & Team Transitions, Family Engagement, and Communications & Logistics), the roadmap will ensure division leadership addresses both the operational requirements and the human impact of redistricting through proactive planning, clear communication, intentional engagement, and targeted transition supports. This initial presentation provided an overview of the focus areas and phases for implementation. Ongoing updates will be provided as additional decisions are made.

Ms. Alaina Trott, Chief Strategy Officer, and Ms. Kara Wall, Chief Communications Officer, presented the information. Topics from the presentation included:

- WJCC United Transition Leadership Team
- Focus areas (reviewed detailed plans and desired outcomes for each area)
 - Student Experiences
 - Employee Experiences & Team Transitions
 - Family Engagement
 - Communications & Logistics
- Implementation phases (reviewed timeline, detailed plans, and desired outcomes)
 - Anticipation – Prior to school board vote
 - Awareness – October-December 2026
 - Connections – January-May 2027
 - Readiness – June-August 2027
 - Belonging – 2027-2028 School Year
- Next Steps
 - Conduct Rising Seniors Survey (September 2-13)
 - Host PTA & Principals Meeting (September 3)
 - Continue developing WJCC United Webpage & FAQs
 - Continue refining Transition Timeline/Tasks
 - Prepare next WJCC United Roadmap Update (October 6)

Board member discussion and comments included:

- This was helpful to see - members had asked to see more information about plans
- Staff did an excellent job; expressed gratitude to those creating this plan
- Noted that people had questions about this when the maps first came out, but it was the cart before the bull
- This is a heavy lift, and the board needs to be supportive and help in whatever way they can
- Inquired about the rising senior survey and if one of the questions will be, "do you want to stay or move to new high school?"
 - Discussed the survey and the potential for providing some kind of option for rising seniors, though without knowing specifically the desire and transportation end, Dr. Keever can't make as strong a recommendation
- Discussed the division of duties between governance and operations, explaining that the board's role is to approve the maps (governance piece) then it stops a

Keever's team picks up on how to operationalize it while thinking through the levels of logistics

- Appreciate the clarification in the presentation - incredible and above and beyond what needs to be out there at this point
- If anyone was feeling anxious about what is to come, this is a good resource, putting everyone on the same page, giving the same language, which is what being united around change is about
- Hoping this helps the public calm nerves
- What does redistricting success look like in a year - this is success - the implementation and human centeredness of it; moving forward, this sets a nice tone for community members
- They are all neighbors in this process - decisions are not made lightly
- Was hoping to give the community more transparency about the plan, and this is what was in mind when making that request
- This is for community awareness; it is a starting place
- To succeed, there has to be some patience to let the process play out

7. Policies

7.01 Review Revisions to Policy AE, School Division Goals and Objectives

Staff comments/recommendation:

- Policy last revised August 2021
- Due for 5-year review
- VSBA model policy reviewed
- Language updated to align with VSBA Model Policy (last updated in May 2026)
- Attorney reviewed and approved changes

7.02 Review Creation of Policy EEAD, Use of School Buses

Staff comments/recommendation:

- Recommend creation of Policy EEAD based on the VSBA model
- Each August, the board is asked to authorize the use of school buses for the city/county. Adopting Policy EEAD would eliminate the need to approve the use of buses on an annual basis.
- Attorney reviewed and approved

7.03 Review Revisions to Policy IA, Instructional Goals and Objectives

Staff comments/recommendation:

- Policy last revised August 2024
- Aligned revisions with the VSBA Model Policy, which went through a substantial rewrite in May 2026 to remove unnecessary language that is incorporated in other policies, including the new policy IK.
- Revised language clarifies and strengthens the policy
 - Line 7 – remove “develops and implements”, add “is committed to providing”
 - Line 8 – add “comprehensive” and “consistent with the”
 - Line 9 – add “requirements of Virginia law and”, “meets or exceeds” and remove “aligned” and “to”
 - Lines 10-12 – add “Students are expected to achieve the educational objectives established by the school division at appropriate age and grade levels.”
 - Line 14 – add “division’s”
 - Line 15 – add “skills of communication including”
 - Line 20 – add “U.S. and world”
 - Lines 33-36 – add VSBA recommended statement regarding the superintendent’s expectations for implementation
- Legal and cross references updated
- Attorney reviewed and approved changes

7.04 Review Revisions to Policy IGAG, Teaching about Drugs, Alcohol and Tobacco

Staff comments/recommendation:

- Last revised August 2022
- Reviewed associated VSBA Model Policy, which added additional language requirements from Va. Code regarding screen time/time spent on electronic devices to required instruction
- Recommend changing policy title to align with the VSBA, and be more representative of policy content: "Teaching about Drugs, Alcohol, Tobacco, Gambling, and Electronic Devices"
- Line 11 – add "hemp products intended for smoking"
- Lines 14-15 - add "time spent using electronic devices such as computers, cell phones, and other smart devices and the addictive potential thereof"
- Lines 17-20 – add VSBA recommended statement regarding a program of instruction on opioid overdose prevention
- Legal and cross references updated
- Attorney reviewed and approved changes

Board members commented that this is a good thing to add to the curriculum, though expressed concern about the amount of time staff have to cover this topic and hope they do not feel too strained; clarified that opioid antagonists are housed in Stop the Bleed kits at every school and specific staff are trained to administer Narcan; and, that the Narcan administration piece is about continuing to raise awareness on how to respond and recognize a potential opioid overdose.

7.05 Review Revisions to Policy IGAJ, Driver Education

Staff comments/recommendation:

- Last revised June 2023
- Reviewed associated VSBA Model Policy
- Lines 12-13 – per VA Code, add language "and reckless driving, including at excessive speeds"
- Legal references updated
- Attorney reviewed and approved changes

7.06 Review Revisions to Policy IIA, Instructional Materials

Staff comments/recommendation:

- Last revised December 2022
- Reviewed associated VSBA Model Policy
- Per VA Code requirements and VSBA recommendations for clarity:
- Lines 20-25 removed – content included in the recommended language in lines 27-31
- Lines 58-67 – definitions expanded, replacing the previous simple code reference
- Legal references updated
- Attorney reviewed and approved changes

Mr. Hosang inquired about the last line in the sexually explicit content definition and explained that most of the definition followed VA Code and the VDOE, though the last sentence (lines 62-63) did not. He requested to make sure it is correct or consider removing it so that they are not misrepresenting themselves. Dr. Brown offered to confirm and bring it back to the board if a change is necessary.

7.07 Review Creation of Policy IK, Academic Planning and Course Selection

Staff comments/recommendation:

- Recommend creation of Policy IK based on legislation effective for the 2026-2027 school year
- Aligned draft policy with the associated VSBA Model Policy, which in addition to using language from VA Code § 22.1-79.3:2, took language from VSBA Policy IAA, *Notification of Learning Objections* (WJCC Policy IAA, *Instructional Priority Objectives*)
- Attorney reviewed and approved

7.08 Review Creation of Policy ILBC, College Board School Day Program

Staff comments/recommendation:

- Recommend creation of Policy ILBC, based on legislation effective July 1, 2026
- Aligned draft policy with associated VSBA Model Policy, which added VA Code § 22.1-79.10 that requires a SAT/College Day program
- Attorney reviewed and approved

8. Action Items

8.01 Approval of Personnel Actions

A motion was made to approve the Personnel Actions as presented.

Moved by: Randy J. Riffle; seconded by: Kimberley M. Hundley, M.Ed.

Aye: Daniel R. Cavazos, M.D., Amy Chen, M.A.T., Ty Hodges, Michael T. Hosang, J.D., Kimberley M. Hundley, M.Ed., Randy J. Riffle, and Andrea M. Donnor

Motion Carries 7-0

9. Board Matters/Requests

9.01 Board Members' Comments

Board members commented on the following:

- Thanked everyone for their hard work and Dr. Keever for efforts working with York County on lacrosse
- 2nd week school visits - everyone looks happy
- Teachers whose children are now teaching for WJCC - gave hope for the future
- New staff give others energy
- Redistricting - slow down, take their time, trust the process, and be kind to each other through it all
- Welcome back students and employees - hope everyone has a great year
- Contract vote from last meeting – question about language in attached documents and whether they could have legally voted on them
- 50% grading policy - recent article came out about local school system doing away with it / possibly review issue again this year in WJCC
- Academic performance report – great things happening, but clear there is some work to do to reach goals
- Instructional audit – hope everyone (board, administration, educators and staff) can take feedback with grace and an open mind as work to improve education outcomes for students
- Friday night – Warhill/Lafayette football game
- Recess time
- Transparency
 - They are all transparent / not trying to hide anything
 - The board receives detailed e-mails with questions and some people get frustrated with responses; though if members have information ahead of a meeting, they will not release it in advance so that everyone can hear it the same way – it is not lack of transparency

10. Meeting Schedule

10.01 Upcoming Events

Event / Date	Time / Location
Special Education Advisory Committee 9/9/2026	5:00 p.m. James City County Recreation Center 5301 Longhill Road, Williamsburg, VA
School Liaison Committee 9/11/2026	8:30 a.m. Rm. 300, School Board and Central Office Annex 117 Ironbound Road, Williamsburg, VA

10.02 Upcoming Meetings
